

ENPROVA
IRELAND'S ENERGY CIRCLE

PARTNER DEFINITIONS

Thank you for becoming a trusted partner with Retrofit Ireland Ltd under the brand name Enprova. Please take two minutes to understand what this means and how you can explain the benefits to your own customers.

Who/What is Enprova?

Enprova is a unique collaboration between Ireland's oil industry and trusted, local, established, independent contractors from communities all over Ireland

Why?

Enprova represents 95% of the Irish Oil Industry engaged in the importation, distribution and marketing of oil products. As with other obligated parties (utility companies), Enprova is tasked to deliver energy saving measures in the Better Energy Programme as agreed with the Dept of Communication, Energy and Natural Resources. Better Energy 'National Upgrade Programme' is a government retrofit initiative to deliver a major increase in the pace, scale and depth of sustainable energy investment in upgrading existing domestic, commercial and industrial buildings and facilities.

What do we do?

As a registered and approved Enprova contractor we advise on and fit energy saving measures for domestic, commercial, industrial buildings and even transport.

What does this mean to your customer?

An Enprova contractor can facilitate the customer by applying for grants under the Better Energy Homes scheme. Work will be carried out by an approved local contractor to the highest professional standard.

Endorsements

An Enprova contractor must be SEAI registered. Enprova is a brand created under contract to Ireland's Oil Industry as represented by specific members of the Irish Petroleum Industry Association (www.ipia.ie).

Enprova Contractors are requested to observe the following guidelines:

- Contractors cannot claim to be part of SEAI
- SEAI does not guarantee contractors work
- Enprova does not guarantee contractors work
- The contract for works is always between the contractor and the customer
